EDUCATION

Polytechnic University of the Philippines – QC
Bachelor of Science in Information Technology

Quezon City, Philippines
Oct 2022 – Oct 2026

EXPERIENCE

Software Engineer Intern

Elinnov Technologies, Inc.

January 2026 – April 2026

Makati City, Philippines

- Developed full-stack web applications using React, ASP.NET, and REST APIs, translating business requirements into functional and maintainable solutions.
- Contributed to the company's product quality and efficiency by delivering features on time, reducing bugs through testing, and accelerating deployment cycles.

Full Stack Developer

Software Research Group - PUPQC

March 2025 – Present

Philippines

- Developed and deployed full-stack web applications using Reactjs, Python (Django), and PostgreSQL.
- Collaborated with a team in an Agile development environment to deliver software solutions efficiently.

Full Stack Developer Intern

Codebility

November 2025 – January 2026

Philippines

- Built end-to-end web application features with Next.js and Node.js, creating responsive user interfaces, secure APIs, and optimized database interactions.
- Enhanced overall system performance and user experience by delivering scalable solutions and supporting faster deployment of new features.

PROJECTS

AI-Powered Ecommerce Platform (GFMIC) | *Python Django*

2024 – 2025

- Contributed as Lead Developer to a multi-module microservices system, including product catalog, inventory, order management, authentication, and web portal modules.
- Enhanced platform usability and scalability by integrating a voice-command navigation system, unifying modules, and supporting maintainable, efficient operations.

Caffeinated (PUPQC) | *PHP Laravel*

2024 – 2025

- Developed a full stack web-based Point of Sale (POS) system integrated with an Online Ordering Portal and Kitchen Display System using REST APIs, ensuring seamless communication from order placement to kitchen preparation and payment.
- Improved operational efficiency and user experience by streamlining order processing, reducing errors, and enabling faster service for both staff and customers.

CERTIFICATIONS

- Rest API (Intermediate) – HackerRank (2025)
- SQL (Basic & Intermediate) – HackerRank (2025)
- PUPQC Certified Associate in Application Defense – PUPQC (2025)
- Software Quality Assurance – mabl (2025)
- CS406: Information Security – Saylor Academy (2025)

TECHNICAL SKILLS

Languages/Frameworks : PHP (Laravel), Python (Django), C# (ASP.Net), JavaScript (Ajax, JQuery), Reactjs

Databases : MySQL, MSSQL, PostgreSQL

Tools : Git/GitHub, Docker, Postman, Jira, Hostinger VPS

Practices : RESTful API Development, Agile Scrum, System Design

Concepts : Object-Oriented Programming, MVC Architecture, RESTful API Design, Microservices Development, Security Best Practices (Input Validation, Authentication, Authorization)
